

2024 NTUST College of Engineering Industry-Academia Master's Program

Program Objectives

The companies will provide scholarships to the students to cultivate master's level engineers required by the industry. Scholarship recipients are required to work in the sponsored company for **2 years** upon graduation.

Eligibility for Application

1. Graduated from a prestigious university in Southeast Asia.
2. Excellent English and Chinese language abilities.
3. Graduated from a STEM department.

Scholarship Amount

Full tuition waiver for 2 years (approximately 230,000 NTD)	+	Monthly stipend of 12,000 NTD (totaling 288,000 NTD)	=	518,000 NTD
---	---	--	---	------------------------

Obligations of the Scholarship Recipient

1. Academic performance must be maintained above average.
2. During the summer vacation between the first and second year of the master's program, it is required to intern at the sponsored company.
3. It is necessary to improve Chinese proficiency while studying at NTUST and **pass the Test of Chinese as a Foreign Language (TOCFL)** (listening and speaking) **at the Band A level** before graduation.

2024 NTUST College of Engineering Industry-Academia Master's Program

Matchmaking Process

1. Students provide their resumes and academic transcripts through a Google form.
2. The school and the company select suitable candidates.
3. The school and the company jointly travel abroad to conduct interviews with the students.
4. Students fill out the company preference form (can list up to 3 preferences).
5. The company decides the list of sponsorships. Students without sponsorship will not be admitted.
6. The school conducts the document review to determine the final admitted students.

While Studying

1. Students take courses at NTUST.
2. Students return to the sponsored company to intern during the summer vacation.
3. Option-1: Stay at NTUST to conduct research.
3. Option-2: Conduct research at the sponsored company through industry-academia collaboration.

2024 NTUST College of Engineering Industry-Academia Master's Program

Employment in the home country

During the contractually agreed **2-year service** period, if the student breaches the contract and fails to fulfill their obligations, regardless of the duration of their service, the sponsored company has the right to recover all the scholarship funds disbursed to the student. The company will calculate the interest using the fixed interest rate of a one-year fixed-term deposit of the Bank of Taiwan, plus an additional **2% annual interest rate**, starting from the date of disbursement until the date of repayment.

How to register for this program?

Applicants are required to complete the registration form and also submit their application documents through the NTUST Admission System. The deadline for receiving the application is **March 5, 2024, at 12:00 noon. (Taiwan time)**
